To Whom it may Concern:

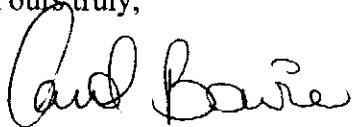

I am writing this letter to provide you with the recommendation of behalf of the 1000 Islands Community Development Corporation for the "The Exceptional Assistant" program. As the Administrative Assistant for the Corporation, I am the "front-line user" of the software.

Our organization has been a user of this program since its' inception in 1993. We have found the program to be user friendly and a great addition to our office. It offers all of the day-to-day information required, as well as, providing the information required for the quarterly and annual reports for our funding agents. Simply put, without it, our work load would increase ten-fold.

Scott Rowat and his professional staff are always willing and able to help, and are, literally, only a phone call away when assistance is required.

On behalf of the 1000 Islands Community Development Corporation, without hesitation, I recommend "The Exceptional Assistant" to any similar operation.

Yours truly,

Carol M. Bowie
Administrative Assistant
